PROJECTS

StudioSpace | Next.js, TypeScript, Node.js, Express, MongoDB (Live Site) (Frontend) (Backend)
A marketplace where creators discover, compare, and book photo studios, film stages, and music suites by the hour, while hosts list and manage their own spaces.

- **Studio Discovery:** Explore, search, and filter studios by category, location, and amenities, with detailed studio pages.
- **Booking Management:** Implemented hourly booking with minute-based overlap validation to prevent double bookings (HTTP 409).
- **Authentication & Security:** Integrated Better Auth with Google sign-in, HttpOnly session cookies, and JWKS-based JWT verification using `jose`.
- **Host Dashboard:** Implemented listing CRUD operations with server-side ownership checks and imgbb image uploads.

Bazar Dor | Next.js, TypeScript, Tailwind CSS, MongoDB (Live Site) (GitHub)
A Bangladesh-focused platform for tracking daily essential commodity prices, comparing local markets, and monitoring price fluctuations.

- **Live Price Ticker:** Developed an animated scrolling ticker with up and down indicators for daily price changes.
- **Price Analysis:** Implemented product-wise comparison with previous-day prices, including minimum, maximum, and average prices across local markets.
- **Bengali Calendar:** Integrated automatic Bengali date display alongside market information.
- **Authentication & Filtering:** Integrated Better Auth with Google and GitHub OAuth, protected product pages, category filtering, and price sorting.
